**Subject:** Re: Consent Decrees for EPCRA enforcement

Hi Steve

I have contacted our program attorney to help identify cases in which you might be interested. Do you want to confine the look to Region 9 or are you interested in settlements around the country or regarding a particular type of facility?

I wonder if you could send me some representative settlements/consent decrees for EPCRA enforcement cases for Section 304 violations. The defendants in our case have suggested that EPA doesn't follow the penalty policy, and that these cases are settled far below what we have suggested in our filing (>\$90 million).

Thanks,

Steve Brittle
